## Descomplica

02/2019 ✦ Today

I'm working as Descomplica Escolas' designer. It's a fresh new business unit and our small team operates in a product driven work model. My role is to come up with hypotheses, apply user studies, prototypes to discover and validate our next steps. Previously I was assessments designer, working with students practice.

## PaperX

02/2018 ✦ 02/2019

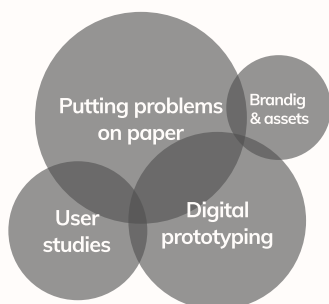

At Paperx I participated of every decision along the other team members - solved everything from product's branding, illustrations to user interviews and UX and UI. In may 2018, with the company acquisition, our team moved to Descomplica to build the assessments experience.

## Trinks.com

02/2018 ✦ 02/2019

At Trinks.com had the opportunity to face a lot of design challenges. I designed landing pages, part of today's branding and product experience in the SaS. It was my first market experience and Trinks product itself was in an embrionary stage, so I had good contact with multidisciplinary paradigms.

### How my work routine looks like

### What i've being doing around

2017 • 2th place at the SND Annual Student Design Contest with the transmedia infographic project “Deuses astronautas” (Astronaut Gods).

2015 • Somnium, life tracking data visualization exhibited at the 200 anniversary of School of Beauty Arts - UFRJ
